Subject: Reaching out

Hi,

I am a former customer.

I want to thank your organization for helping me succeed. Your program and my relationship with Harry Carroll had a huge impact.

This is in retrospect, as I think our first work together was in the early 90's. I remember Harry's pitch... "most owners have a business plan, but no personal plan". A personal plan was my next big thing...changed everything.

Success is the progressive realization of worthwhile predetermined, personal goals. It's true. I lived it.

I moved to a different house 4 years ago, found the old LMI binders. The dream list...completely done...and beyond...yet at the time of training they were just ideas and hope, as I learned productivity and began reducing my 100-hr work week.

So it works, keep it up, thanks again. I hope Harry is well.

Paul Winsor  
Former CEO and President of Klenzoid Canada Inc.
